## Newsletter No. 151

Hello to everyone,

No two years are the same—they can be similar and we compare—but the truth is each year is in essence itself. The rain has certainly been good for my garden (weeds and insect life included). Now a whinge—our suppliers—the companies that supply Dawmac with product. Over the years with advancement of technology they have progressively made doing business with them easier but far more complex (the double edged sword). The latest frustration that we have encountered is changing conditions that have been implemented regarding trading terms. The other day I noticed on a supplier invoice an error—we desired 2 of these product but our coding was wrong and we were being supplied 2 packs of 8 ie 16 filters, instead of 2. I phoned the supplier immediately to try and have the order adjusted. Even though the parcel had not left our supplier and they (the supplier) were willing to hold the parcel and remove the excess filters we would be charged a 30% restocking fee because the goods had been invoiced. On checking with 2-3 other suppliers I found that they also had altered their trading conditions to include the ability to charge a restocking fee immediately after goods had been invoiced. No more 14 or 21 day incur no penalty return period. Please understand this is not our policy but if we encounter such an expense from especially ordering product then you need to appreciate that we will pass these costs on.

Remember Berrigan Market Night Friday 4th December—a good night out for the whole family.

Cheers and good health

John P Lane  
Managing Director

a CLARCOR company

0418 131 805 Jo

Call in and say hello.

We wish them all the best with their new venture

## HEALTH & SAFETY SNIPPET

Before bringing equipment into Dawmac to be examined or repaired please ensure that:

- ◆ it is free from chemicals
- ◆ in a clean condition (eg. flushed out).
- ◆ hydraulic hoses have been drained of oil

This ensures the staff are free from chemical contamination and slips/trips/falls.

We do not wish to offend but under Health & Safety law we are unable to accept it for repair if the equipment has not been flushed out.
