## Newsletter No.198

Hi Everyone,

Spring is officially here and it appears the winter that had so much promise has gone to dust. Another dry year, another drought and another year without irrigation water. It is very peaceful to experience each morning coming out of the darkness with the dawn – to see the dark blue of the night sky give way to brighter blues as the sun nears its rise at 6:23.

From 1<sup>st</sup> October 2019 Jason and Kelly Milich will commence operation of their own new business – Berrigan Auto Electrical and Air Conditioning. Jason will cease his employment with Dawmac Industries on Monday 30<sup>th</sup> September 2019 and from Tuesday 1<sup>st</sup> October will be self-employed. His new business will still operate out of the Dawmac premises but will be independent, allowing Jason greater flexibility to deliver customer service and work completion.

We wish Jason and Kelly every success in their new venture. Dawmac will be supporting Jason all we can and while times are tough we feel confident that you, our customers, will become Jason's customers and will also support them in this new venture. We will send out further details in the next fortnight.

Dawmac wishes Brandon and his partner Zoe good fortune with the imminent arrival of their first child. To support his family, Brandon has taken extended leave and Dawmac will be without his services until early October 2019.

Remember the Berrigan Show on Sunday 6<sup>th</sup> October 2019.

*Cheers and Good Health—John P Lane (Managing Director)*

*A customer took a Haymes 4L Enamellex & Hammertone Thinner, but we failed to get customer details... is it yours? It was sold on 7th August 2019.*

### **Emergency Water Infrastructure Rebate Scheme**

**NSW**—Eligible Primary Producers can claim a rebate of 25% of the cost of purchase, delivery and if applicable, the labour cost to engage a person to install water infrastructure for animal welfare needs.

The On-Farm Emergency Water Infrastructure Rebate scheme can be applied to costs incurred from 1<sup>st</sup> July 2018 for new purchases, and installation of pipes, water storages and water pumps, de-silting dams, and associated power supplies such as generators.

The maximum that can be claimed is \$25,000 per farm enterprise. The availability of rebates is subject to funds being available. No rebates will be offered beyond the allocated funding of \$12 million.

Applications close 30 June 2021 or when the funding allocation is exhausted, whichever occurs first.

[www.raa.nsw.gov.au/\\_old/assistance/emergency-water-infrastructure-rebate-scheme](http://www.raa.nsw.gov.au/_old/assistance/emergency-water-infrastructure-rebate-scheme)

**VIC**—There are two grants available in Victoria.

**Grant 1)** A rebate is available for 25 % of the cost of purchase, delivery and/or professional installation of on-farm water infrastructure for animal welfare needs and to improve resilience to drought, **\*\*UP TO \$25,000 maximum rebate available per farm enterprise.** Visit [www.ruralfinance.com.au/uploads/grant\\_files/OFEWIR\\_Guidelines.pdf](http://www.ruralfinance.com.au/uploads/grant_files/OFEWIR_Guidelines.pdf)

**Grant 2)** A Grant of up to \$5000(ex-GST) per farm business is available to assist eligible farm business's to implement on-farm infrastructure improvements. Eligible farmers are required to provide at least a dollar for dollar fund matching contribution. (IE the government will pay half of the cost of goods bought (up to \$5000 back from the government) Many of our customers who have bought solar pumps in drought affected areas have already received rebates from these grants.

**SCAMWATCH**

### Threat and penalty scams

If a government authority or trusted company is telling you to pay up, stop, think and double-check.

**How the scam works—** Instead of offering a prize, money or rebate, these scams use threats designed to frighten you into handing over your money. The scammer may call you and threaten you with arrest or send you an email claiming you owe money for a speeding fine, a tax office debt or an unpaid bill.

During the phone call, scammers will pressure you into paying immediately and tell you the police will be sent to your house if you refuse. Scammers have been known to target vulnerable people in our community, such as newly arrived migrants. They pretend to be immigration department officials and threaten victims with deportation unless fees are paid to correct errors in their visas. A very similar scam involves the scammer pretending to be from the Australian Tax Office telling their victims they have an outstanding tax bill.

Scammers also pretend to be trusted companies such as your bank, gas, electricity, water or phone provider. They will threaten to cancel your service or charge you excessive penalty fees if you don't pay the bill immediately. Sometimes they may impersonate a business like Australia Post stating you have an item to pick up or you will be charged a holding fee every day you don't pay. Whatever the case, they try to make you worried and act without stopping to think and check that the story is true.

If the scam is sent by email, it is likely to include an attachment or link to a fake website where you will be asked to download proof of the 'bill', 'fine' or 'delivery details'. Opening the attachment or downloading the file will result in infecting your computer with malware.

### Protect yourself

- Don't be pressured by a threatening caller. Stop, think and check whether their story is true.
- A government agency or trusted company will never ask you to pay by unusual methods such as by gift card, wire transfers or Bitcoins
- Verify the identity of the contact by calling the relevant organisation directly—find them through an independent source such as a phone book, past bill or online search.
- Do not use the contact details provided in emails or given to you during phone calls. Again, find them through an independent source.

## Outback Golf Challenge

### NSW LONG WEEKEND

**FINLEY** Saturday, October 5

**JERILDERIE** Sunday, October 6
